

Benefit Overview

GREENWAY CARE COORDINATION SERVICES

GCCS enables your practice to:

Improve patient outcomes

Provide greater access to proactive, preventative care

Improve patient care plan adherence

Reduce acute episodes and hospitalizations

Increase practice revenue

Extending the Reach of Care Beyond Your Practice to Improve Patient Health

Greenway Care Coordination Services (GCCS) combine technology, processes, and people to deliver powerful remote care that **improves patient outcomes, provides greater access to care, ensures compliance is met, and increases practice revenue**, transforming patient care management within your practice. By leveraging these turnkey solutions, you can provide value-based care without creating extra work for your clinical staff.

Our combined **Chronic Care Management** (CCM) and **Remote Patient Monitoring** (RPM) solutions **maximize your practice's care coordination strategy**, saving you time by taking on the responsibility of enrolling patients in CCM with RPM and empowering them to live healthier lives. GCCS offer a transformative approach to care management through proactive methods such as health coaching, providing access to real-time monitoring and digital counseling, performing eligibility checks, making thousands of codes billable, and creating claims automatically. **Embrace the future of care management with Greenway** and unlock the full potential of your practice.

KEY FEATURES:

- End-to-end care management solutions
- Robust integration with Greenway EHRs
- Customization to drive toward practice program goals

Monthly per-member per-month service rate fees assessed based on number of members receiving billable services in each month. Provider subscription fees apply for duration of services agreement.
